Subject: Jut Meininger

Vic I am not the best at writing these endorsements, if they would like to change this please let them know they have my permission. I am truly blown away with the tremendous work in these books. Please also have them adapt what I have written for "The Executive Leader" if they want to.....

"Jut Meininger deserves a Human Resource Award for this tremendous work. Earl Nightingale and Lloyd Conant founders of the Nightingale/Conant Corp. were my mentors for many years starting in the early 60's when I first began to study human potential, therefore I received the very best guidance and the most effective information. It has helped me build a global organization. They would have highly recommended Jut Meininger's Clarity. I will definitely be using this information in all of my work and I will recommend Clarity wherever I travel".
